

Stock Canvas Colors

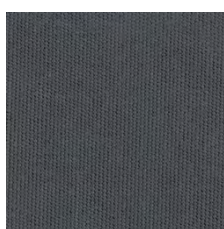

When selecting a canvas color for your screen-printed banners there are a few things to take into consideration. Most designs can be created on one of our Stock Canvas Colors.

Please note, when the colors marked (DP) Dual Ply are used it's because the canvas is somewhat transparent and needs a different finishing technique. Your banners will be constructed out of 2 layers of canvas with a block-out liner sewn in between which will prevent the design from shadowing through and interfering with the image integrity front to back. This method of construction will cost more due to an increase in materials and labor.

Colors marked with an asterisk denote a premium canvas color and they too will be more expensive. And don't worry, if your design requires a different canvas color we can always special order over 100 different colors!

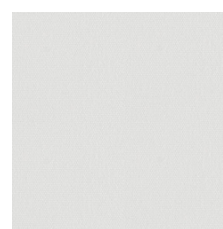

Black

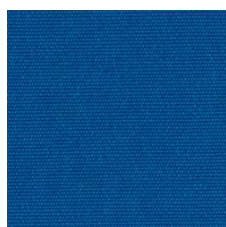

Dark Gray

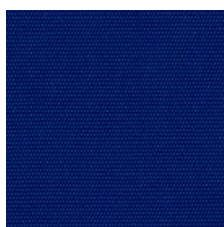

Light Gray (DP)

White (DP)

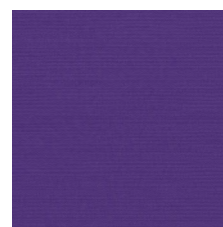

Light Blue

Royal Blue

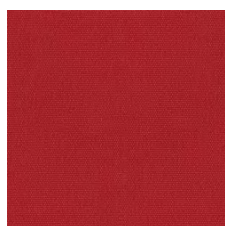

Navy

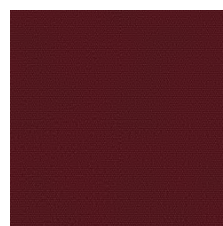

Purple* (DP)

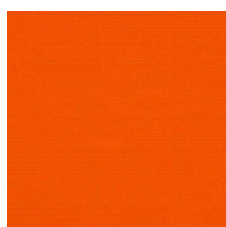

Light Red*
